

About Opta Minerals Inc.

Opta Minerals is North America's leading integrated processor/distributor/seller of industrial minerals. From our roots providing sand to a local foundry in the 1880s, Opta has grown to an international group of companies in Canada, the United States and Europe, all committed to delivering optimal results for our customers.

We source, process and distribute a wide range of products and services, from traditional copper and coal blasting slag to patented silica-free abrasives, construction-grade and golf course sand, water filtration media and jet cutting garnets, all used in a variety of industries and applications.

OUR MISSION

"Empower our customers to achieve optimal results by providing the quality products they need and the exceptional service they deserve."

OUR VISION

"To be the world leader in providing integrated product and service solutions for industrial and construction minerals, combining the relentless pursuit of innovation and growth with an unwavering focus on exceeding our customer's expectations."
